Hey guys,
LA Times is going to write a story about our sidewalks.

Lance, can you answer these questions for Safe Routes Project?

Vahik, can you answer these for the Maxine Waters project.

Don, can you answer these for the rest of Sepulveda?

We obviously need to be as accurate as possible.

-Nate

Hey there David,

I remember last year there was a story on sidewalks being fixed in Sepulveda.
I'm wondering if you could tell me:

How many miles were fixed?

Where was the location of the fixes?

How many trees were removed?

What type of trees were removed?

How many replacement trees were planted?

What type of trees were planted?

What is the size of canopy of the new trees?

What was the cost of the project?

Who paid for the project?

Also, were there any other large scale sidewalk repair projects in CD11 that I haven't heard of?

Dave Z
